DSK 2013

Dream Stage Korea 2013 is a unique audition program created by Avance Entertainment, the Kpop's first foreign artist management company, and the Korean government to discover and launch the world's first all-international Kpop idol group. In addition to online audition, regional live auditions will be held at 10 cities around the world with the scheduled finals in Vancouver.

PDI-EPAA is the official presenting partner of the DSK 2013 and as such we are also designated as the official training centre of DSK 2013. This means that this year's showcase for the graduation class of the EPAA will be merged with the finals of the DSK 2013 itself, meaning that all EPAA students will receive automatic berth to the final without going through the preliminary auditioning process and compete with hundreds of thousands of the normal DSK 2013 audition candidates.
